Rába Axle Ltd.

Member of the Rába Group

SAFETY POLICY

Safety principle of Raba Axle Ltd.

Responsibility:

We have a responsibility to prevent risks, adverse effects and dangers arising from the handling and use of our products affecting the health, safety, environment and property of our customers and third parties.

Legal compliance:

This is not only our legal obligation, but also our mission; we comply with the laws and regulations applicable to our products, as well as internal processes and regulations.

Risk management:

For this purpose, when developing our products and planning our production, we systematically assess risks, take measures to mitigate risks and implement improvements. We ensure that appropriate measures can be taken in time in case of any deviation.
